

FONG ZI QI

Software Engineer Intern

+60 10 203 0186 | fongzqi123@gmail.com | Selangor | [e-Resume](#) | [LinkedIn](#) | [GitHub](#)
Available for a 12-week internship from 21 September 2026

PROFESSIONAL SUMMARY

Software Engineering undergraduate with hands-on experience developing full-stack web and mobile applications using Laravel, React, React Native, Node.js and SQL. Experienced in REST API development, role-based access control, client-server integration and workflow automation. Currently developing an LLM-integrated employee onboarding system using n8n, with interest in software engineering, backend development and AI automation roles.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, PHP, Java, C++, SQL, HTML, CSS
- Frameworks & Libraries: React, React Native, Laravel, Bootstrap, Eloquent ORM
- Backend, Automation & Data: REST APIs, MySQL, SQLite
- Tools & Concepts: Git, GitHub, VS Code, Android Studio, OOP, MVC, RBAC, Data Structures & Algorithms

PROJECTS

Automated Onboarding Management System (Final Year Project) | LLM, n8n July 2026 - Present

- Researching the integration of Large Language Models (LLMs) with n8n workflow automation to streamline enterprise employee onboarding processes.
- Evaluating Retrieval-Augmented Generation (RAG) methodologies to securely query local onboarding data and minimize AI hallucinations.

Food Ordering Web App | Laravel, PHP, Eloquent ORM, MySQL, Blade Feb 2026 – June 2026

- Developed an end-to-end e-commerce restaurant ordering system handling menus, dynamic session carts, checkout pipelines, and historical user order tracking.
- Secured restricted system operations by architecting Role-Based Access Control (RBAC) using Laravel Gates and Policies to isolate administrative dashboards from customer endpoints.

Note Taking App | React Native, TypeScript, Node.js, REST API Feb 2026 – June 2026

- Built a cross-platform mobile client using React Native and TypeScript, implementing structural state management to handle seamless user interactions and local data rendering.
- Implemented client-server communication so notes stay synchronized across devices, running the backend server alongside the mobile app during deployment and testing.

EDUCATION

Universiti Tunku Abdul Rahman (UTAR) June 2024 – June 2027

Bachelor of Software Engineering (Honours) | CGPA: 3.48

Universiti Tunku Abdul Rahman (UTAR) May 2023 – Jan 2024

Foundation in Arts (Management and Accountancy) | CGPA: 3.55

VOLUNTEER & LEADERSHIP

Marketing Committee Member | Music Club Concert July 2025

- Formulated and executed digital promotional campaigns across student media channels, designing public-facing communications to maximize concert attendance and ticket sales.

Logistic and Fundraising Committee Member | Dance Club Concert Sep 2024

- Supported event logistics, participant communication and issue resolution, contributing to smooth programme execution and a positive student experience.

AWARDS & CERTIFICATIONS

- Malaysian University English Test (MUET): Band 4.0
